

Hungate Garden Project

Two good working days this weekend. Many thanks to Steve Green who very kindly let me sort through the rubble from his house renovation for bricks, and also transported them to the school.

These were put to very good use, edging the side of the path and round the sundial. Thanks to Trevor and Nigel for the bulk of the bricklaying and Richard and Chris for cleaning the bricks.

I also have to thank Marrieanne for collecting 10 bags of surplus sand and gravel and bringing them down to the school. We still need donations of bricks, pavers and building sand if you come across any.

Our next working day will be Saturday 24th Nov.

If you can lend a hand, between 10am and 3pm, we would be very grateful for the help.
