

## Hungate Garden Project

The third working day saw only four volunteers, but a lot of progress has been made. The reclaimed decking was completely dismantled and powerwashed, cut to size and the new raised beds partly assembled. Many thanks to Ted and Trevor.

Keith, the mini-digger driver, also turned up with a donation of 2 tons of ballast and 5 bags of cement. Many thanks again, Keith.

The other team, Mark & Chris, carried on clearing rubble off the site and preparing the area for the new raised beds.

The existing picnic benches were also powerwashed and now look back to their best.

A lot of work still needs to be done. The next working day is Sunday 19<sup>th</sup> August, when we will be laying flagstones and finishing constructing the raised beds.

If you can lend a hand on either of those days, between 10am and 4pm, we would be very grateful for the help.
